EXPERIENCES:

SB Solutions PVT. LTD. [FRONT-END ANGULAR DEVELOPER]

Charkhal, Dillibazar, Kathmandu

[JULY 2021 – NOVEMBER 2021]

As part of my job, I worked with senior developers and QA application testers to maintain front-end for existing projects and developed new front-end for new projects related to banking loan automation, loan approval, loan management and document management systems. I worked on Spring Boot Java framework and used tools such as the IntelliJ IDE, Microsoft SQL Server, HTML, SCSS, TypeScript, BOOTSTRAP with Angular Framework. During my early days at the company, I also worked as an application tester, testing features and functions for existing projects to be able to learn the application system and how they are operated.
